

“I don’t think an investor is somebody who speculates on the market. I would call that person a gambler. A true investor is someone who says ‘these are the dollars I’ve worked hard for. These are the dollars that are going to provide for me and my family

FOR THE REST
OF OUR LIVES.”

We attribute our success to four principles that guide everything we do at Hanson McClain:

- 1. INDEPENDENT ADVICE:** We do not offer our own financial products—the advice we give is free of the sort of conflict of interest that can exist by having your own products. We are in just one business: acting in our clients' best interests.
- 2. STRAIGHTFORWARD PLANNING:** You can be assured that we will tell you what you need to hear in order to make the best decisions for you and your family. This is not always what you want to hear.
- 3. A COMPREHENSIVE APPROACH:** Money decisions are intertwined with life decisions. Therefore, it is essential that we start with a broad, holistic profile of your life and goals in order to make the right money decisions for you.
- 4. PEERLESS CUSTOMER SERVICE:** Our clients are well taken care of—one-to-one personal service, frequent account updates, regular communication.
