

# Athletic Inspiration

While this project is about architecture and construction management, it is also about athletics.

Allow us to briefly share  
**the things about sports  
that inspire us** >

# why we watch?

To see the pick-and-roll, to hear sneakers on hardwood,  
To watch an underdog defeat logic,

To be amazed by the death-defying spike,  
the lightning-quick take-down,

To witness the last second buzzer-beater,  
To be inspired by the raw emotion of the moment!

# why we play?

To get after it,  
To see if we're good enough,  
fast enough, tough enough,

To feel the fear inside,  
To get up and shake it off,

To find something we didn't know we had.
